## 6 M Throw

## 6 M Throw

What is a good 6M line?

➔ Let's see the rules...

Rule 14:1

- a clear chance of scoring is destroyed anywhere on the court by a player or a team official of the opposing team.

What is the meaning of clear change ?

**Clear change:** a player who already has ball and body control at the goal-area line of the opponents has the opportunity to shoot on goal, without any opponent being able to prevent the shot with legal methods  
(CLARIFICATION NO:7a)

[Video-3](#)  
[Video-4](#)

- there is an unwarranted whistle signal at the time of a clear chance of scoring
- a clear chance of scoring is destroyed through the interference of someone not participating in the game.

They are the most known titles...

**BUT THESE ARE NOT ENOUGH FOR THE 6-METER DECISION...:)**

## FOR EXAMPLE :

- when a defending player enters the goal area and, because of this, destroys a clear chance of scoring (RULE 6:2c)
- If the defending goalkeeper saves a goal in the “Shootout” by violating a rule, a 6-meter throw has to be awarded (RULE 9:9)

### **It means:**

The goalkeeper is fully responsible for any contact with an opponent outside of his goal area.

That practically means that in any contact where the attacking player has no chance to see the goalkeeper.

If the incident occurred during the Shoot-out, a 6-meter throw and a disqualification of the goalkeeper will be called.

- If a goalkeeper “jumps” against an opponent who is trying to score not vertically, even for scaring the opponent, both a 6-meter-throw and a suspension must be awarded. If the goalkeeper is causing a physical contact against the opponent, both, a 6-meter throw and a disqualification must be awarded. The defending goalkeeper always bears the responsibility of this kind of action.

**Correct**

**Not Correct**

**THE GOALKEEPERS RESPONSIBLE FOR THE THEIR ACTIONS!**

## **MOST IMPORTANT COMMON LINE!**

### **Rule14:1**

If an attacking player retains full control of ball and body despite a violation as in 14:1a, there is no reason to give a 6-meter throw, even if thereafter the player fails to utilize the clear scoring chance.

Whenever there is a potential 6-meter decision, the referees should always hold off on intervening until they can clearly determine if a 6-meter decision is indeed justified and necessary. If the attacking player proceeds to score a goal despite the illegal interference from the defenders, then there is obviously no reason to give a 6-meter throw. Conversely, if it becomes apparent that the player really has lost ball or body control because of the violation, so that a clear chance no longer exists, then a 6-meter throw is to be given.

THE MOST IMPORTANT THING IS A  
DEFENDER PLAYER HAVE TO CLOSE THE
