Findings EURO 2014 / part 1 – fast break and attack in numerical superiority:

Distribution of goals related to positions:

- 6m – 15%
- Wing – 15%
- 9m – 33%
- Fast break – 15%
- 7m – 11%
- Break through – 9%
- Fast throw off – 2%

Fast break actions from CRO, FRA, DEN, ESP

Goals scored during man advantage / numerical superiority_

- DEN: CB makes transition to the opposite side of LB and passes the ball back to him. LB tries to find the best option – shot or pass the ball to one of his teammates
- CRO: They try to succeed making man advantage (3:2) on one side + block of pivot.
