

BEHAVIOUR OF OFFICIALS

- We shall not allow officials to stand up and try to provoke referee decisions (offensive foul, passive play etc.)

- The working system for the head coach to stand, kneel or move in front or behind the bench – we allow this as long as the focus is on coaching, but it means that there is no flexibility for a second official to stand or walk around.

- We are asking the officials, please do not take up a position standing in front of the officials' table and disturb the work at the table! Perhaps kneeling in front of the table is allowed !

- Team time-out – sometimes some coaches „are playing games” with the table (holding the card, touching the table, removing it, etc). This is very irritating – we know those coaches – they want to wait for the exact moment! We need correct cooperation.

- Injured player on court: if there is a leg – or head injury, of course we will have the necessary time – out quickly! But in case of small injuries the player can stand up and get off the court if he/she can.
