

**Dear Handball friends,
Dear colleagues
And after these three working days I hope that I can say also
Dear team-mates.**

Our referees and delegates convention is coming into the final phase.
The preparation of this convention was not easy.
Many thanks for all persons involved:
For the elected people from both competition and method commission;
For the external lecturers and
For the professional staff of European Handball Federation.

Many thanks also for you: for all participants
For your activity and your questions:

Every good and exact question is very important for a good answer.
Without a question it is not possible to be creative
It is not possible to improve and develop any organisation

The convention is ending; but new tasks and work are starting
I hope we are on the proper way

I wish you a good return back home; good luck in your work; with your
family and in handball

And hopefully see you in the near future.

Frantisek Taborsky - EHF MC Chairman
