

2011 EHF LECTURER'S

ANTÓNIO GOULÃO - POR

1. Education Guideline book (for the EHF Member Federations to better educate EHF Referees and Delegates)

- Replacing the book written by an e-book, available on the portal EHF Family.
- Use of this e-book for all federations, boards of arbitration, arbitrators and delegates.
- Detailed information about criteria, arbitration techniques, advice, training techniques through pictures and video.

The same pattern for the whole community EHF

2. Female project – officiating by females

- Greater investment in women's doubles, with a higher number of vacancies
- Using the same system as the basis for the development of men's doubles. Preferably used in women's competitions (international) and major men's competitions (national) —————> More experience
- The same technical training in relation to male but a mental preparation more suitable for women.
- Female Handball brand image with the participation also of the arbitration.

Change of mentality

3. YRP Development

- Continue with the development of training young referees with the potential to integrate the key executives of EHF.
- Create specific trainers for these groups and further monitoring during each season.
- More international matches, more tournaments, etc..

EHF referee status is enduring why? Why does not the inclusion of the best referees in each country, according to some requirements?

4. Rules development – more simple rules

- Simplification and generalization of the criterion of passive play, perhaps with the determination of a maximum time of attack (eg, basketball)
- The implementation of the launching of output can be much faster and ensure rapid game and the show —————> just be the kicker to launch over the central 3 meters from the throwing line goal is neutral positioning of their colleagues.

Although it is always difficult to simplify what is complex ..

5. E-learning Referees and Delegates using EHF Web Portal content

- Monetization of HFS Family
- Portal that would serve as training but also for assessment through periodic tests and analysis of videos, etc..
- European day after each update videos and indication of resolution of each situation.

Why not e-learning courses?

6. Modern tools – video forum , headsets , video and refereeing

- The EHF was to launch the tender for acquisition of the remaining material headset as necessary and provide price information federations.
- Federations should have a term (one to two years) so that its implementation if it made after the EHF should enforce the use of headsets in the main competitions in each country.
- Preparation of an analysis program for before and after games:

Before - analysis of the teams, athletes, play forms, attack and defense

After - Analysis of various video game situations

7. Electronic Referee evaluation sheet - automatic procedure "Last to Next"

- After each game performance of the self-criticism not on paper but through the portal, each judge separately, then together and delegate.
- Enter a value depending on the degree of difficulty of the game / race.
- In the portal should be updating all the comments so there is a report with the averages of each criterion for the EHF have a better profile of the double.

**The clubs can not contribute to this work? They would have
until 48 hours after the game to send the analysis.**

8. Handball and media

The modern sport is characterized by the spectacle and the how competitive each game / race.

And so the media enjoy all this impact the demand for sporting spectacle and emotions because they do not is this way do not have interest.

There are dozens of cameras, microphones to capture sound, replays, commentators and other docks to hold the viewer the transmissions and this war technological Logic between this § categories, only seduces the viewer to stay in the comfort of your home, front of your TV.

The appearance of Discussion Topics to Pavilions a growing problem and should be cause for much be concerned.

This undermines the main source of revenue for clubs that the revenue from ticket sales.

8. Handball and media

With clubs in economic crisis, we must ask ourselves:

What is best for the club?

A large audience on several television stations, providing a profit on the sale of transmissions of the games (if any)?

Or be very public in the halls, always thrilled with his team every game?

This brings us to another question?

The fans will prefer to go to the pavilion to watch the match of his club, with heat or cold, with or without car parks, or stay home with the show sponsored by television transmission, and the comfort of your home?

And what contribution can refereeing?

Being closer to the media, being more transparent and does not create that feeling of the dark side of sport.

9. Other visions

Should be established a group of European elite is composed of dual professional / semi-professionals with the following duties:

- fitness tests / technicians of 2 in 2 months
- training of young umpires in their federations
- Monitoring of arbitrators of the European competition in your country

Would be the first choice for champions league and the final stages of HFS, and Challenge Cup winners.

Thank you
