VISION 2011/12

Dear colleagues

Your „homework“ is not so easy, regarding visions 2011/12.....

Herewith I will send you some ideas in the four different asked points:

1. Education Guideline:

All referees/delegates of the first two leagues in a member federation have to lead a „semesterbook“ like on a university. Included:

- Shuttle run/Cooper test results
- Results from rule tests, for delegates special delegates test (like in EHF courses)
- Possibility to create EHF rule tests, which have to be filled in in this book
- Ranking in the running season
- Remarks from the national referee commission regarding performance
- Language capacity

Additive:

- EHF should nominate 4 – 5 experts for normal champion chip games in the federations. The performance of this games has also to be entered in this book
- Only this 4 – 5 persons have the duty to award EHF badges
- No more EHF referee qualification tournaments in „the old style“.....
- EHF needs a new job in the federation: Referee Development Responsible (« RDR »)

2. YRP:

- More psychologie
- More body language
- More selling decisions and not selling rules
- More personality
- More feedback with direct video analyses
- Videos, which are focused on the referee as person only and not on the game

3. E – learning:

- Electronic powerpoint presentations from an internal experts circle on EHF website
- Create a technical system, who makes it sure, that this presentation were written
- Rule tests on internet and electronic answers from all Ref and Del
- EHF could give the order to referee couples to analyse international games from champions league, which were direct on ehf TV channel. Normal performance sheet to EHF to compare with the Del. Possibility to send this sheet also to the Del
- Dart fish situations from actual games, the Ref and Del have to take decisions and to

send this decisions to Vienna to the « RDR »

4. Electronic Referee evaluation sheet :

- First of all: you have to open the top secret : what's about the points in the sheet ?
- Reduce the included parts!
- Next game – the last performance sheet has to be send direct to Ref and Del
- When possible: a special programm with an automatical average in all parts
- It's not necessary to send the Referee performance sheet to EHF!
