

Dear Hannes,

I picked and summarised the following topics for the lecturers' seminar.

1) 2 pointer

Enough of those in-flights and pirouettes. We must and will find another (or more) 2pt type in order to sustain the attractiveness of our sport.

2) Offence performance + match officiating

I know that it has been discussed before but I still remember, at the very beginning we used to give penalty points to the offending team when the defence was performing in an unsportsmanlike way. This one shall come back, in order to increase the creativity and performance of all players.

3) Match guidance

There must be official tournaments for mixed teams. BH was a pioneer in many ways and mixed teams were a solid element; however they cannot be seen that often. I am in BH almost since the beginning but never witnessed a high ranked official game with mixed teams.

So far so good, my friend.
See you in a couple of days :=)
