

## **2011 EHF Lecturers' Seminar in Vienna/AUT on 11/12 June 2011-07-18**

### **Inputs by the Participants**

#### **Summary of Coaching Topics for the Future**

(presented by Carlos Garcia/POR/EHF Lecturer)

##### **Proposals:**

- 1) Reduction of the number of players
  - more space means more technical/tactical possibilities
  - handball must be an attractive game, easy to understand for the spectators
- 2) Technical/tactical elements
  - methodological/didactical/pedagogical philosophy on "how to play defence"
  - we want a fast, physical but fair game
  - create a philosophy/a pedagogical concept for teaching defence after asking the national federations
  - focus on playing the ball/ "trap ball defence" (provoking opponent to make faults)
- 3) Playing time of 3 x 20 minutes
- 4) Focus on coaches' education
  - reserve some time to discuss emotions
  - communication between coaches – referees and delegates
- 5) EHF Lecturer staff
  - regular seminars, exchange of opinion in the future
  - "virtual" seminars, use of new media

#### **Summary of Refereeing Topics for the Future**

(presented by Mona Förström/FIN/EHF Lecturer)

##### **Proposals:**

- 1) 2011 EHF Guidelines for Referee Education on EHF and National Level
  - excellent teaching tool for EHF and National Federations
  - regular updates concerning practical training/exercises necessary
  - more emphasis on referee - delegate cooperation
  - more emphasis on referee – coach – delegate communication
- 2) Female referees
  - female referees shall also referee men's competitions
  - no women's competitions refereed by female referees only

- referee performance criteria shall apply for both genders
  - in some countries female referees do not get equal chances
  - mentoring system to be introduced and applied on EHF and national level
- 3) Young Referee Programme (YRP)
- EHF YRP coordination on a good way
  - Mentoring system to be applied in the YRP
- 4) Rule development
- simpler rules
  - less clarifications, shorter but clear wording
  - coaches' input very important
- 6) Handball and media
- guidelines to be elaborated on how to cooperate and handle the media

### **Summary of Beach Handball Topics for the Future** (presented by Sinisa Ostojic/CRO/EHF Lecturer)

#### Game design:

- 2 pointer: new attractive solutions to be created by the players
  - o Group tactic: in-flight
  - o Single: spin shot
  - o ...
- Mixed teams: mainly for promotion games; up to the age of 12 years mixed, boys and girls teams for competitions – compare Minihandball; competitions for mixed teams could be taken as a new initiative
- Role of the goalkeeper: only when the was goalkeeper in the defence before – in case this idea could be taken into consideration it has to be implemented into the IHF BH Rules of the Game; so far it is the decision of the coaches; in case the GK will not be switched with a specialist the speed of the game will increase – could be a future development in BH to create players who will have the respective skills for both roles.
- Benefits of BH for indoor Handball: to be listed (+arguments) for players and referees in order to strengthen the value of BH

#### Officiating:

- Rules:
  - o Rules shall not be changed again in the near future
  - o To adapt some BH rules to indoor rules
  - o Charging fouls and pushing could cause problems in the future – clear guidelines to be needed – in progress
