

Observation system

Delegates Seminar

20.-22.03.2008 INNSBRUCK, AUT

Vladimir RANCIK, SVK

Observation system

- ❖ Mind history or forget about the past?
- ❖ Comparison and confrontation with the handball development and improvement as a game
- ❖ Establishing general conditions to be an observer
- ❖ Essential part of the system at the national federations
- ❖ Delegate and observer – two in one, possible or not?

Observation system

Mind history or forget about the past?

- no rules
- who made selection and who was selected
- what were the results
- without an appropriate press from EHF side there should be not improvement

Observation system

Comparison and confrontation with the handball development and improvement as a game

- faster, more physical demands, higher level of concentration, regular training = more and more professional
- natural concentration on the improvement at the referee side = part of the game, main decision maker but pure amateur
- And ??? What about observers ???

Observation system

Establishing general conditions to be an observer

- divided into two levels (national, international)
- language
- referee's practice
- level of referee's practice
- observer's experience within an appropriate level

Observation system

Essential part of the system at the national federations

- preparation of the observers (seminars, courses, international events)
- acceptation of different level of preparation, but cooperation within referees event,

Observation system

Delegate and observer – two in one, possible or not?

- the main tasks of delegates (plenty)
- the main tasks of observer (observe the referees)
- Delegate - Technical remarks
- Observer -
