JEO

Journal of Experimental Orthopaedics

The basic science journal of ESSKA

The Journal of Experimental Orthopaedics is an international journal that aims to bridge the gap between orthopaedic basic science and the clinics.

It publishes papers related to the entire field of experimental orthopaedics, including physiological, pathological and therapeutic aspects of cartilage, bone, tendons and ligaments and other musculoskeletal tissues.

The journal ensures rapid peer-review and publication of high quality papers.

JEO is now accepting manuscript submissions via the Springer online submission system at www.jeo-esska.com
