

2009 EHF Youth Coaches' Course
during the
W19 European Handball Championships

Welcome by Bogdan Macovei / EHF MC member

Dear Ladies and Gentlemen,

On behalf of the EHF and in the name of the EHF President Tor Lian I welcome you to the EHF Youth Coaches' Course organised on the occasion of the finals of the W19 ECh in Hungary.

The overall topic of this course is "Specific legwork in offence and defence". However we have also invited specialists to inform you on current injury prevention programmes.

It is a pleasure for us to welcome 75 participants from 18 different nations including 20 Non-European participants.

I would also thank very sincerely and also in your name the speakers that will share their competence with you over these next 4 days.

The Methods Commission is basically in charge of this event which has also been organised on the practical level by the Hungarian Handball Federation, and I would like to thank them both.

Hopefully you will profit from the lectures of the experts; in addition we do hope that you will profit from the exchanges with your colleagues and from this notion of network building that is a main target of each mayor conference.

I wish you all the very best and I hope you will derive profit from this stay in Győr on the occasion of the W19 EChs and I hope to see you soon again that we can continue to build-up our friendship in Handball.

Thank you very much and have a good conference
