FAIR PLAY

GENERAL

- Fair play or fair game is not only an essential element of sport
- *It is more general philosophy of respect for others and respect for rules, both on the sports field and in the work or other competitive ventures*
- Fair Play is philosophy - one of respect for others, and respect for the institution of sport
- *It leads to an agreement, between all of those involved in sport, on the values and lessons that we want sport to teach our children and ourselves*
- Fair play is a worldwide understood concept, which found its origins in sport

ORIGIN

- Fair play originated in Great Britain as part of new sporting ethos
- From there it was exported to the European continent and elsewhere in the world
- The first generation of European sports officer, such as Pierre de Coubertin in France, were fascinated by this new British sporting way of life, which they perceived as a new form of practical morality
